lachy. They were at the throne of God but they rebelled and were con-sequently hurled from the barriers of heaven to the lowest depths of hel. They had no more their celestial beauty, their glory. They were left in misery and torment ferever. Think it, for a trifle God banished the yal princes of his household. Think it brethren, Lucifer, one of God's now suffers in hell.

What that unhappy wretch think of mortal sin would make our blood curdle. The Almighty God punished the angels for their sins, showing his hatred for sin. The very devil in hell hates his sin. Let us consider how God punished man for his sin. Adam was a very happy man in the garden He had everything his heart desired. There was no suffering, no sickness, no worrying and no sorrow. Sickness, no worrying one mortal sin But brothers, one, just one mortal sin destroyed it aft. changed all this, destroyed it aft. Adam and Eve disobeyed God—they committed a mortal sin. They were driven from the garden of Eden to earn their bread through toil. From that day the lot of man on this earth has been suffering and evil appeared on the earth as a result of Adam's

But how is this to be atoned for? to the cross. Turn and see Jesus crowned with thorns, see him strug-cling for Calvary, kicked, mocked and nailed to the cross. Here is the work of sin, the malice of sin.

Perhaps we look on it as a trifle to remain in bed on Sunday instead of going to mass. When you are tempted .turn your eyes to the cross of Calvary. Day after day we sin for the slightest reasons. We eat, sleep. laugh, smile and never give a thought to the state of God's anger while we walk near the brink of hell and at last we lunge hopelessly over and are

Keen before you the consequence and then you will learn from sin what it is and despise it as the saints and martyrs of God did. They would martyrs of God did. They would rather die than ever be guilty of sin. You do likewise and you will be

rowned with glory.
The Almighty God will hold us responsible for every sin we commit.

Consider the nature of hell if you want to know what sin is. A pool of fire and brimstone with nothing but everlasting suffering. Form an idea of the sufferings in hell.

Father Mulcahy told of Lazurus, and the rich man. How after death when the soul of Lazurus rented in heaven the soul of the rich man was in living torment. The rich man begged of Lazurus a little drop of water to moisten his lips, yet he was refus-ed. He craved and begged for the drop and is still doing so. Truly, from this incident the physical suffering of hell must be terriffic, but this is nothing to the torment and suffering of the soul. It is the soul that the torments of hell are realized.

If that soul is chained down by

mortal sin, it may rise and try to go on but it will reach no further than the barriers of hell as it will besten bock again. Bretheren, all this misery and suffering of body and soul eternal, everlasting, for ever and

Father Malcahy told of a man who was buried alive in a mine and when the body was recovered his features were a picture of despair. So will the ul rage in hell day after day, year after year, forever and ever.

Rev. J. S. Kirtley, D. D., a noted Chicago speaker, preached before a large sized congregation at the Central Eaptist church or Sunday evening. Sunday was a red letter day for the Central Baptist church, for in addition to having the unusual privilege of hearing Dr. Kirtley at the evening service the congregation heard Dr. E. J. Cummings of Burma, who spoke at the morning service.

Listening to God was the topic upon which Rev. Dr. Kirtley spoke and he took his text from Samuel 3-10: Speak, for thy servant heareth. God was alking to aboy of 12, and the boy was listening, said Rev. Dr. Kirtley. How God was speaking to him is a matter of interest. Whether he addressed the inner car so distinctly and compellingly that the boy could enter into communion with God or addressed him by words through the outer car we cannot tell. What God said was of critical importance to the boy right then and during his whole life, to old Eli, the priest, and to his whole family, to the whole nation of Israel and even to us, at this distant day.

In what a variety of ways was God supporting His approach to Samuel! God was in nature and God was in the history of Samuel's people. Surrender to God in that Interview meant three things to Samuel. It meant a sense of God's wishes. It meant an acute

## SPEAKER "GRIPPE" LEAVES KIDNEYS WEAK

Good, Safe Regulator Needed to Set Them Straight. How to Make a

The epidemic of colds and grippe that has been sweeping the country has seemingly left even a greater number of people than ever in a weakened, run-down condition from which there is but a slow recovery. Much of this after weakness affects the kidneys and biadder, making it difficult for them to perform their natural functions. Sufferers have to get in and out of bed half a dozen times a night, their backs are weak and painful, sick headaches and dizziness are common symptoms. No serious trouble may exist, but the time to check such syzamptoms is at once, before matters grow worse. No complicated treatment may be needed if a few doses of a good safe kidney regulator like Solvax is taken right away, Solvax straightens out an ordinary case of weakened kidneys in about twenty-four hours in many instances, sifts out and neutralizes poisonous urie acid and drives the clogged up poisonous kidney waste from the body so that you can begin to feel better right away. Solvax is harmless, centains no alcohol or habit drugs and Lée & Osgood and other leading druggists agree to refund its full purchase price if in any case it fails to give entire satisfaction.

## SERV-US MINCE MEAT

Package condensed mince meat is nade up today of the best quality of fried fruit and other items which can be found, all of which are found in the United States with the exception of spices and currants. The study of packing condensed mince meat has exended over a period of 100 years and today is as near its perfection as we can possibly conceive. The sanitation in the factories in which it is packed is beyond reproach as the competition today in these lines necessitates the guarding of the most minute detail of the business. The apples used are of the best grade of New York State, where in our opinion is grown the best flavored apple known. The raisins used are of the best quality seeded variety. No expense is con-sidered in procurring the very highest grade of spices, and sugar, as we all know, is always sugar, the different grades merely representing the differ-ent flavors or different granulation required for different purposes. Every particle of fruit or any other article used in the manufacture of mince meat is thoroughly cleaned and hand-picked by people trained to know what should and should not be used and in this manner the article comes to the housemanner the article comes to the house-wife cleaner by far than she could possibly take the same articles in her own kitchen, regardless of how clean it may be, and make up the filler for her mince pie. The old idea of dirt being prevalent in quantity is today disputed by the greatest authorities on food products. The mean used in food products. The meat used in mince meat is of the choicest and to-day the same corn-beef which you day the same corn-beef which you and I would use on our table is what is being used in Serv-us Mince Meat. There are very few pies made which can be used as handily by the housewife as mince meat for all it requires in a little water and being heated for ten minutes and it is ready for the crust and then the table and she may without fear of loss carry three or four packages of mince meat in her pantry, having it ready at any time for the chance occurrence of unexpected company and it will be a good dessert free from dirt. It is our thorough belief that a mince meat pie made from condensed mince meat is about as cheap a dessert as can be about as cheap a dessert as can be prepared and yet as good.

For many years mince meat was considered a winter dish. Each year for the last ten our factory has had to increase its capacity during the summer months until today it runs every day of the year with a regular force of helpers. We ship goods to every part of the country the entire year. This of course means a great increase in the use of these goods over when mince meat was eaten only in the winter months which means an in-

creased sale over the former winter THE L. A. GALLUP CO.
